

Enhanced cyber-protection for
your confidential data

As the world becomes more hyper-connected, enterprises are increasingly more vulnerable to cyber-attacks which could lead to extensive outages for the businesses, trade, government and financial institutions. We are in an era of increased threat from elaborate data breaches and denials of service. These threats to information assurance are on the rise and are increasing in sophistication. More than ever, it is critical for enterprises to ensure the security of their networks and data.

Protect your data with
CyphreLink for continuous
security assurance.

About CyphreLink

CyphreLink is a fully-managed service that provides Global 360° data security protection for sensitive and proprietary information transiting any network. Operating as an over-the-top application, this powerful solution provides virtually unassailable encryption for data in-transit, network certificates, and encryption keys by establishing a highly-secure connection between trusted end points.

With CyphreLink, enterprises can be ensured that the secure connection across satellite, fixed, or wireless networks can be done with greater flexibility and agility than traditional connections. Connections are protected from man-in-the-middle (MITM) attacks and unauthorized eavesdropping. This allows enterprises to leverage virtually any network efficiently and cost-effectively.

Features

Hardware-based Encryption

CyphreLink is not vulnerable to hacks that impact traditional security, software-based technologies, and consumer devices

Always-On Protection

It does not require a threat to be detected in order to protect data.

No User Action Required

It ensures protection cannot be disabled by employees and contractors.

Zero Overhead, Zero Latency

It improves speed and security while reducing cost.

Full Compliance

Whether it is with business security, industry standards or government regulations.

Future-Proof Solution

It is not impacted by old software, patches, and other security gaps.

Benefits

CyphreLink provides virtually limitless protection for satellite communications:

- Virtual tunnel from remote assets from satellite to teleports
- Full protection regardless of security of the link and terrestrial hardware
- Intra-site network traffic encrypted and secured
- Perpetually future-proof as no patching or upgrades are required
- Easily incorporated into an enterprise's existing data protection, key management and access control technologies.

Deployment Flexibility

About Singtel

Singtel is Asia's leading communications technology group, providing a portfolio of services from next-generation communication, technology services to infotainment to both consumers and businesses. For consumers, Singtel delivers a complete and integrated suite of services, including mobile, broadband and TV. For businesses, Singtel offers a complementary array of workforce mobility solutions, data hosting, cloud, network infrastructure, analytics and cyber-security capabilities. The Group has presence in Asia, Australia and Africa and reaches over 650 million mobile customers in 21 countries. Its infrastructure and technology services for businesses span 21 countries, with more than 428 direct points of presence in 362 cities.

About Singtel Satellite

Singtel Satellite is Asia's leading provider of one stop satellite communications and ICT solutions, driving innovations to meet voice and digital challenges in Fixed and Mobile Satellite segments on both land and at sea.

With a strategic focus on Maritime communications, Singtel Satellite engages the key needs of Maritime customers with broadband satellite communications, Cyber Security solutions and ICT applications in Crew Welfare, Operational Efficiency, and Monitoring and Control, bridging mission critical communication gaps between ship and shore.

From satellite to fibre to IP, Singtel Satellite offers global coverage and versatility across platforms. Backed by 3 teleports pointing to more than 30 satellites and supported by our award winning IP VPN infrastructure and an extensive terrestrial network of with more than 428 direct points of presence in 362 cities, Singtel Satellite ensures quality customer experience in communications and connectivity.

Committed to delivering service excellence and with more than 40 years of collective experience, Singtel Satellite empowers global customers with complete solutions to organically drive productivity, efficiency, and experience.

Awards

Seatrade Maritime Awards Asia
Communications at Sea Award 2018

Asia Communication Awards
Satellite Operator of the Year 2017, 2016, 2015

VSAT Industry Awards
VSAT Service Provider of the Year 2016, 2014

The Technical Innovation Award
Seatrade Asia Awards 2012, 2010, 2008

Global Top 20 World Teleport Association
Top Teleport Operators of 2017, 2016, 2015, 2014, 2013, 2012, 2010, 2009
