Product Brochure
AIO MailSecure

Singtel AIO MailSecure uses advanced technologies to protect your maritime business against malware, viruses and spam.

Singtel AIO MailSecure is a cutting-edge email service designed for use in demanding remote environments and fully optimised for maritime. AIO MailSecure is airtime independent and runs on both Linux and Windows, providing more solutions for maritime businesses.

AIO MailSecure is delivered as a secure, stable, cloud based service which enables essential business communications in an optimised manner. The web dashboard enables the remote configuration and administration of vessels, making life easier for both crew and shore based IT teams.

With the critical importance of email to the commercial shipping industry, AIO MailSecure has been developed specifically for the maritime industry to deliver performance, reliability and intelligent operation. We also provide 24/7 365 ITIL trained global support.

Benefits

Operating system independent
able to run on both Linux and Windows

Airtime independent
works with any airtime supplier

Restart from point of interruption
resumes data transfer from point of interruption if there is a break in communications
